

Free standing convector WBF

WBF is a free standing convector with **steel die-cut grid**. Heat exchanger technology allows hot air to be released through the grid to its surrounding without undesirable release of its heat to the convectors body. Thanks to the **better circulation** of the air, it has higher heat outputs compared to trench convectors. **WBF is for the finished floor.**

dimension (in mm)

standard colours

*custom colours upon request

material of the casing and legs

Casing is made from **1,0 mm galvanized steel**, legs are made from **1,5 mm galvanized steel**. It is not allowed to sit or stand on the convector.

material of the heat exchanger

Heat exchanger is made from copper pipes and aluminium lamellas. The diameter of the pipes is 15,9 mm with 0,4 mm of thickness. Endings are with 1/2" connections.

water connection

Right and left connection is possible, needs to be specified. In the standard delivery there is a hole for thermostatic head. If actuator will be used, side with the hole for the thermostatic head could be changed for the side without the hole, needs to be specified.

technical data

From 600 to 1600 mm there are **two legs**, from 1800 to 2900 mm there are **three legs**, max. operating pressure 10 bar, automatic air vent, tested in accordance with **DIN EN 442**.

standard delivery accessories

Standing legs for finished floor with screws and wall plugs.

optional accessories

WZA leg covers, which can hide water connection pipes and fixing screws to the floor

WZB covers, which can hide fixing screws to the floor

heat output [W] 75/65/20°C
